USAMMA POC: Customer Relations Management, 301-619-4301/4316, DSN 343-4301/4316
UNIT PRICE: $446.83

System Description: Inspired by the most rigorous demands of our elite military medical groups, this medical bag system is durable and flexible, suitable for use by military, paramedics, field medic, smoke jumpers, search and rescue units, and anyone with a need for a really tough bag. The system is modular, with internal components which are removable and transferable. The Sked-Pak™ I is a heavy duty backpack designed to use the standard Military ALICE (All-Purpose Lightweight Individual Carrying Equipment) pack frame and specifically for use in parachute jumps. It comes complete with an integral single point release mechanism and leg straps necessary for jumping safely. The internal components can be removed as a unit for re-supply, or transferred quickly from bag to bag. A second removable insert can be purchased to enable instant re-supply. All components can be ordered separately, for replacement of lost parts or to keep kits pre-packed, ready for rapid replacement in a field environment. All internal components are black.

Features: The Sked-Pak™ I Jumpable Medical Ruck includes

- A sewn-on single point release and removable leg straps to meet the technical requirements for use by a parachutist (eliminates the need for the traditional "H" harness).
- When released the pack drops on a lowering line for personnel safety on landing.
- Includes outer storage pockets, two canteen pockets, and a removable accessory pack which can be attached on the top or bottom. A second accessory pack can be purchased to increase storage capacity.
- Compression straps, leg straps, and release mechanism are included with each bag. The compression straps prevent loss of equipment should the zipper burst on impact.
- Coil zippers are used throughout the bag, allowing sliders to be pulled back over a popped zipper, making it good as new.
- Does not include pack frame or canteens. A Camelback can replace the 2-qt canteens.

Military personnel and other jumpers are encouraged to contact Skedco for complete information regarding parachute jumping provisions of the bag.
