USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901
UNIT PRICE: $1,650.00

System Description: The ChillBuster Blanket system is specifically designed to treat hypothermia encountered in the field, and in the pre-hospital, hospital or surgical environments.

Features:
- User set temperature range of 65˚ to 105°F for controlled warming
- 1.75-3.5 hours of operation, allowing for extended patient transport
- Blanket wire heats to 105°F within 60 seconds for rapid thermal response
- AC/DC converter permits an alternative to line power operation to enhance operating flexibility
- Optional cigarette lighter adapter allows unlimited blanket operation during transport
- Optional Blanket covers: sterile, single-use and non-sterile general use

USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901
UNIT PRICE: $3,634.51

System Description: The Blood-Fluid Warmer is used by healthcare personnel in both field and hospital environments to warm blood or intravenous fluids to body temperature before administration of these fluids to patients.

The enFlow IV Fluid Blood Warming System is a high performance system for the delivery of fluids or blood at a continuous 40°C from KVO to 200 mL/minute. The warmer unit fits in the palm of your hand and is placed close to the patient allowing a very short distance (9 inches recommended) from the end of the warmer to the patient's IV site. This helps prevent loss of heat while the IV fluid travels to the patient IV site.

Features: Warmer Unit

- Visual temperature indication
- Audible and visual alarms
- Redundant safeties
- Cold sterilization
- Portable
- Multiple power sources
  - Fast battery charge
  - 24 - 32 volts DC
  - A/C power pack

Disposable Cartridge

- Utilizes standard IV infusion sets
- Utilizes standard IV protocols
- Easy to insert and remove
- Non-pyrogenic
- Universal fluid compatibility
- Latex free
- Low priming volume
- Compatible with infusion pumps or pressure infusers

USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901
UNIT PRICE: $22,540.00

System Description: The M Series CCT features a three-channel display for ECG and up to two invasive pressures with ranges covering arterial, pulmonary arterial, central venous or intracranial pressure as well as two temperature channels. Of course, it also provides you all the non-invasive parameter options of the M Series including SpO^2, $EtCO^2$, NIBP, and fully interpretive 12-lead ECG.

Features:
- ZOLL XL Battery for longer transport times
- Transport-ready design
- Easy-to-read display
- M Series technology and simplicity
- Full range of parameters for a full range of patients
- Flexible color display
- Quick, easy connections
- Ready to gather and share critical data

NOTE: • CD-ROM is available for reference

USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901
UNIT PRICE: $165.37

System Description: An excellent resource for problematic extrications, the OSS II can help to safely remove patients from injury sites without doing further damage to the spine. The unique criss-crossing shoulder strap design provides superior immobilization without restricting breathing and, for clavical fractures, can be re-configured to retract and immobilize the shoulders. The OSS II is designed to provide easy access to the patient's chest or abdominal area for treatment or diagnostic procedures. It can be used in place of a conventional short backboard and as a hip or leg splint. The OSS II includes a shoulder board to prevent compression of the shoulders when using a flexible stretcher, and also comes with a collar strap, forehead restraint (with ten disposable covers), head pads, carrying case and instructions for use.

Features: Main Body:
- COLLAR STRAP (SK-301)
- FOREHEAD RESTRAINT (SK-302)
- HEAD PADS (SK-304)
- DISPOS-A-PADS (SK-302A)
- SHOULDER BOARD (SK-303)
- CARRYING CASE (SK-305)

USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901
UNIT PRICE: $324.13

System Description: This flotation system maintains the Sked in a nearly vertical position in the water. It is self righting and keeps the patient's head completely out of the water, even in rough seas. The side floats and chest pad provide buoyancy sufficient to support two rescuers in the water in addition to the patient, while the lead shot filled ballast keeps the foot end down and the head elevated out of the water. The system is available with CO2 inflatable side float logs.

Features:
- Chest Pad (SK-602): Available in Black for military applications the chest pad attaches to the front of the packaged patient, not allowing the patient to float in a face down position. The chest pad is fully inflatable.
- CO2 Inflatable Float Logs (pair) (SK-605 & SK-606): Each of the float logs has an inflatable bladder covered with durable black nylon. The logs can be inflated instantly with the included CO2 cartridges, or can be inflated by mouth.
- Ballast Weight (SK-601): A durable bag filled with 15 pounds of lead shot which attaches to the bottom of the SKED with hook and loop fasteners. This causes the SKED to self right if it capsizes.
- Retaining Strap (SK-209): This strap is used to attach the foam floats and the chest pad together.

USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901
UNIT PRICE: $425.00

System Description: Laryngoscope Set Fiber Optic Battery Operated with Case

Features:
- Reduced handle and blade weight for improved balance and maneuverability facilitates even the most difficult intubations
- Repairable, allowing replacement of deteriorating light pathways for a fraction of the cost of a replacement blade
- Improved design with reduced proximal blade height assists in intubating patients with limited oral access
- Single-piece stainless steel blades ensure blade integrity (no soldered joints)

USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901
UNIT PRICE: $187.85

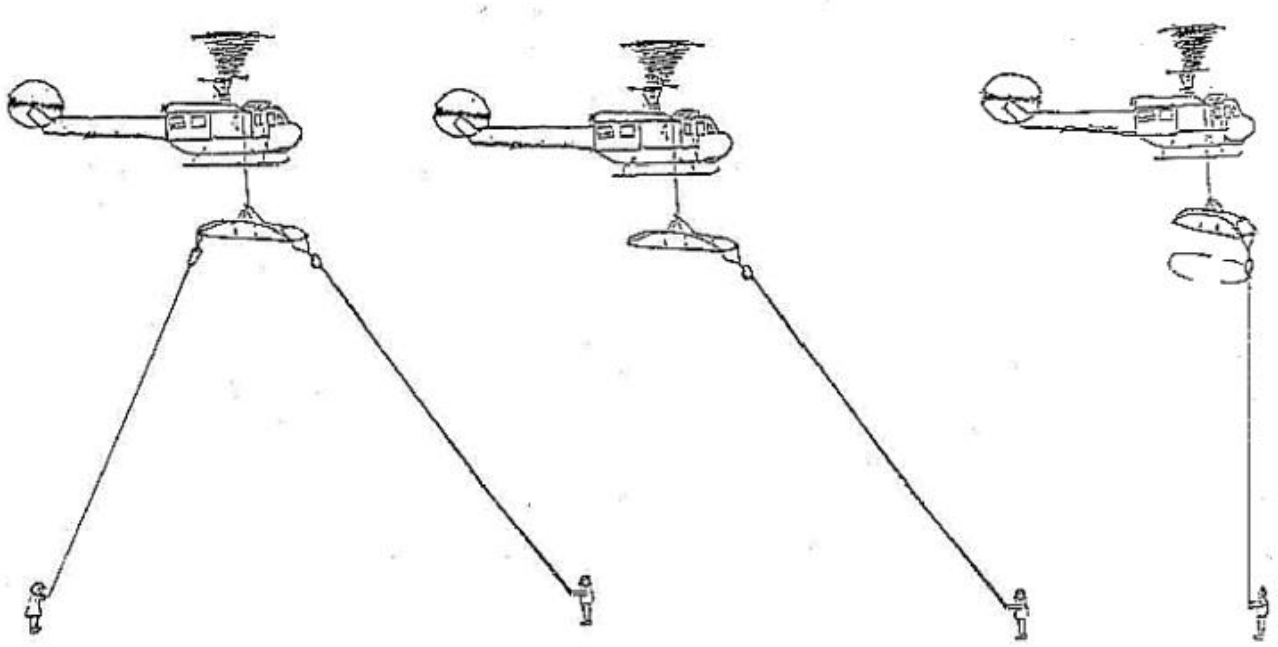
System Description: The purpose of a tag line is to prevent dangerous litter spin that occurs when hoisting a litter by helicopter. This kit is designed to prevent spin while preventing other problems normally associated with tag lines, such as tangled rope, deployment difficulties, and storage problems.

Features: The Skedco Helitag Kit contains 250 feet of 7 mm water rescue rope. It has a polypropylene core with a nylon sheath which allows it to float in the water and have good abrasion resistance. Both ends have a figure 8 knot on the end of the rope that is backed up with a double overhand knot for safety.

HELITAG HELICOPTER LITTER TAGLINE MMS KIT
PART # SK-1010
NSN 6545013810654

Recommended Personnel Placement for Helicopter Hoisting of a Stretcher

Preferred Placement | Good Placement | Improper Placement



Ideal placement. Use of two tag lines is the safest way to prevent any litter from spinning. Two tag lines should always be used in training and non hostile situations for best litter control. Maximum visibility for pilot and crew.

Good placement to prevent stretcher spin with minimum tension applied to tag line. Maximum visibility for pilot and ground crew.

While better than no tag line at all, this placement of personnel and equipment tilts the stretcher, increasing the likelihood of spin, and requires greater tension on the tag line to prevent the spin, creating an increased possibility of weak link separation.

WARNING! A NEW WEAK LINK MUST BE USED EACH TIME A HUMAN LOAD IS HOISTED!

USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901
UNIT PRICE: $545.48

System Description: Now you can check your heart rate and blood-oxygen saturation levels simply and quickly with the Nonin Onyx 9550 Pulse Oximeter. Just place over your fingertip. It will automatically turn itself on and light up a display, providing you with instant, real-time info on your heart-rate and blood-oxygen saturation levels. When you take the Nonin 9550 Pulse Oximeter off of your finger, it automatically turns itself off after 7 seconds, saving the battery life.

Features: The portability and functionality of the Onyx II makes it a valuable tool in any situation where a fast and accurate reading of blood oxygen saturation and pulse rate is needed.

- Oxygen Saturation Range: 0-100 % SPO^2
- Pulse Rate Range: 18-321 BPM
- Small & Lightweight. Carry the Onyx II anywhere – on a lanyard, in a carrying case or in your pocket. It weighs less than 2 oz.
- Large Bright LED Display. SpO2 and Pulse Rate that can be read from any angle, day or night.
- Pulse Quality Indicator. Brilliant, easy-to-see LED provides a quick and accurate assessment of patient readings.
- Pediatric to Adult Finger Sizes. Accommodates a wide range of finger thicknesses, 0.3 - 1.0 inch (8 mm to 26 mm).
- Automatic On/Off
- Energy Efficient. A new turn-off mechanism allows two AAA batteries to provide approximately 2500 spot-checks or 21 hours of continuous operation.
- Durable & Reliable. Rugged enough to be used in the most demanding situations. The Onyx II has the US Army aeromedical certification for use in helicopters.
- 2 AAA Batteries and Instruction / Service Manual included

UNIT PRICE: $752.15

System Description: Fully customizable panel for trauma care providers working in the field or from a fixed platform. These systems offer the utmost in flexibility and bridge the gap between aid bags and larger storage containers with a streamlined, highly organized modular system. System focuses on tactical deployment flexibility and adaptability to any circumstances where medical aid will be administered. Panels can be hung both vertically & horizontally in temporary and permanent facilities as well as fitting fixed wing, rotary wing and ground mobility vehicles. Systems can be carried backpack or suitcase style. All pouches are removable and interchangeable accommodating mission specific customization. Pouches are labeled and have see-through vinyl for easy content recognition.

Folded 20" x 19"
Expanded 20" x 45"

Features: This impressive modular medical bag features 10 internal modular zippered pockets (9 with snap backs and 1 Velcro™ back) that have Velcro™ labels covering Assessment, Airway, Breathing, Chest Tube, Circulation A, Circulation B, Medication, Burn Care, Splinting and IV Therapy. The bag also has 5 outer pockets (4 with Velcro™ closure and 1 zipper). The bag can be secured in the folded position with two side and end buckles. Plus each end has 4 heavy duty grommets. There are carrying handles on each end and in the middle for carrying when folded. The pack also features shoulder and backpack straps.

USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901
UNIT PRICE: $5,979.24

System Description: The multi-channel infusion system brings clinical versatility to drug infusion technology. The instrument combines three independent infusion channels with features like dose rate calculation and portability in a small, compact size.

Features:
- A small, compact size and lightweight design
- Reduced bedside clutter
- Accuracy - delivers intravenous, intra-arterial, epidural and subcutaneous applications
- Flexibility - deliver a wide range of fluids from various containers, including syringes, utilizing a syringe adapter set
- Versatility - can travel with patients in the field throughout their hospital stay, meeting a wide range of infusion needs; unique clamping system allows pump attachment virtually anywhere
- Set-based free-flow protection - SmartSite® needle-free valve ports and standard injection ports are available
- Dose rate calculation, single-page programming, selectable drug library and titration of drugs by the user in either dose or volumetric rate

NOTE: Only one Field Maintenance Software & Drug List Editor Kit will ship per 100 units OR one with each order placed -- not one with each unit purchased.

USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901
UNIT PRICE: $584.99

System Description: The Sked comes equipped for horizontal hoisting by helicopter or vertical hoisting in caves or confined industrial spaces. When the patient is packaged the stretcher becomes rigid. The durable plastic provides protection for the patient while allowing extrication through the most demanding confined spaces. The stretcher is rolled for storage in a tough cordura backpack which is included with the system.

Features: Each Sked® Basic Rescue System comes complete with:

- The Sked® Stretcher (SK-201)
- Cordura backpack/Towing Harness (SK-202)
- Horizontal Lift Slings (SK-203)
- Vertical Lift Sling (SK-207)
- Steel Locking 'D' Carabiner (SK-206)
- Tow Strap (SK-204)
- Removable Webbing Handles (SK-205)

USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901
UNIT PRICE: $2,344.08

System Description: Includes twenty-eight size-specific procedural modules in seven pouches, flying carpet, Broselow® Pediatric Emergency Tape, and all other equipment shown in photo. All contained in a heavy-duty ALS equipment organizer. The Broselow® Pediatric Emergency System is approved for the PALS education program.

Features:
- Designed for children in emergency situations
- Fully stocked
- All contained in a color coded, easy to use kit
- Latex free
- Contained in heavy duty ALS equipment organizer
- For children 3 to 36 kg (6.6 to 79.3 lb)

NOTE: The procedural modules are a complete set of twenty-eight modules for the seven Broselow color packs. Included are packs for Intraosseous access, O2 delivery, Intubation and I.V. delivery. Equipment pack includes 2 color-coded disposable manual resuscitators, 4 cuff masks, 3 color-coded disposable blood pressure cuffs, 1 gauge, 2 Magill forceps and 2 Vital View II LED fiber optic laryngoscope handles.

AAC 'L' ITEM NSN 6515-01-516-2527

UA's: 257B, 268B, 506A

USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901
UNIT PRICE: $483.26

System Description: The Field Spinal Kit contains all products needed to handle a spinal injury in the field
- 2-piece full-length folding backboard
- OD collar / head wedge combo pack
- Three 5' two piece loop end straps w/ auto buckle
- Two 9' one piece straps w/ auto buckle
- Contents of kit are enclosed in a Cordura pack

Features: Folding 2 piece full length backboard
- Separates into 2 pieces for pediatrics & adult extrication applications
- Surpasses all others in strength & dependability
- Guaranteed against defects for the LIFE OF THE UNIT
- No mold plugs, seams or voids for blood, body fluids or soil to hide in
- Oversized hand holes measure 2"x 6" for gloved hands
- Measures 72" L x 16" W x 1.75" H (folded, 36" L x 16" W x 3.5" H)

OD collar
- One-piece design - adjusts to any adult size neck w/ 16 different settings
- Incorporates latches that allow the rescuer to size the collar exactly
- Two safety buttons hold collar in place for maximum reliability

Head wedge
- Immobilize the patient's head instantly when placed on a backboard
- Applied easily & quickly in four simple steps
- Enables a perfect fit in one go
- Made of durable plastic

Cordura pack
- Concealable back pack straps
- Two additional carry handles

USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901
UNIT PRICE: $715.92

System Description: This version of the Reel Splint Immobilizer™ has a unique twist. Two snap ring twist "Quick Disconnect" sleeves are positioned at the bottom or distal end of the splint. These sleeves allow the Reel's exclusive traction ratchet to be inserted into the distal portion of the splint. With the immobilizer component in the straight and neutral position, the ratchet can then be connected; thus creating the world's most highly effective long bone traction splint. In this traction configuration, there are two vitally important developments incorporated into the splint's design.

● ANATOMICAL PIVOTING ISCHIAL PAD: This assures proper alignment at and with the patient's "ischial pathway angle." Pivoting left or right, the ischial pad can be situated with proper and complete consideration of delicate proximal injury sites. The majority of femur fractures occur in this upper third portion of the thigh making this a major concern.

● POSITIVE MIDLINE POF: Allows the knee to be slightly flexed and supported at an angle that emulates the patient's natural anatomical position of function (or POF). This is highly beneficial in achieving proper natural limb alignment during traction while positively effecting nuero vascular integrity.

Features:
- Extrication handles - ideal for patient and extremity management
- Wound visualization & treatment - strap design allows complete & total access
- Limb repositioning - adapts readily for patient comfort or neuron-vascular restoration
- Folding design for storage
- Autoclavable
- Elevation stand is pin free - makes stand deployment, storage retractions & replacement simple
- Single Hand Ratcheting Control - one medic can control both mechanical traction application & patient manual traction at the same time
- Safety Traction Lock - when engaged, this lock feature disables the traction ratcheting knob, preventing any accidental loss of traction
- Reel's one-size-fits-all Ankle Hitch saves time, money & training while providing a significantly improved neutral foot position result
- The smaller profile "wrap around" design leaves pulse points accessible

USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901
UNIT PRICE: $2,758.56

System Description: The Model 326 is a multifunction, continuous and programmable intermittent suction unit. Built around Impact's ultra-lite® vacuum pump. The Model 326 may be used for oropharyngeal, tracheal, wound drainage, and abdominal or thoracic decompression procedures - short or long-term use. Its supplied accessories permit continuous use from AC or DC power, and internal rechargeable batteries provide power for several hours of transport or emergency backup. Collection canister assembly includes a reusable collection jar, canister, elbows and fittings. The 326 also includes Air Worthiness Release (AWR).

Features:
- AC/DC rechargeable battery operation
- Simultaneous battery recharge and operation
- Dual-scale metric/English vacuum gauge
- Extended operation between recharges
- Energy efficient, easy to use
- Oil-less vacuum pump
- Exceeds all clinical standards for upper airway & gastrointestinal suctioning
- 2 universal collection canister brackets hold 2 canisters up to 2000 ml capacity each
- Patient adaptable intermittent suction
- Continuously variable programmable selections
- Small/lightweight/versatile
- EMI/RFI certified for aeromedical use
- Built-in wall/pole mounting bracket interface
- Low battery indicator
- 2 Velcro straps to attach unit to a litter – 1” x 24” w/ 18” loop in the middle and a 3” hook at the ends

USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901
UNIT PRICE: $557.87

System Description: The digital thermometer is battery operated with interchangeable oral and rectal probes; includes probe case, four (4) boxes of probe covers, with twenty-five (25) per box. There are three (3) extra AA batteries, and it comes in a case with inserts. The thermometer can be mounted to the wall.

Features:
- Provides 4-second oral, 10-second pediatric axillary temperature for children seventeen (17) years and younger, 10-second rectal, and 15-second axillary temperatures for eighteen (18) years and older
- Monitor mode capability for measuring 3-5 minute temperatures
- Used probe covers may be ejected

UA's: 257B, 267B, P308, P309

USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901
UNIT PRICE: $12,912.18

System Description: Transport ventilator completely self contained, this unit is battery powered, weighs just over 12 lbs. and consumes no gas. Featuring an internal compressor and blender, the the device offers PEEP with Controlled Assist, SIMV, Intubated CPAP, and CMV (for Apnea backup) ventilation modes. Bright graphic LCD provides monitoring and alarm settings. An interactive demo/teaching mode assures fast startup sequence in as little as three steps. This unit is EMI/RFI & air medical certified.

Features:
- Interactive Demo/Teaching Mode
- Operation Accomplished in as few as 3 steps
- Full altitude compensation
- Internal PEEP
- On-board emergency backup ventilator
- Automatic LCD backup lighting
- CD-ROM is available for operator familiarization

USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901
UNIT PRICE: $13,077.98

System Description: Rugged, lightweight, portable vital signs monitor for field use.

Features:
- Motion tolerant monitoring
- Small, lightweight
- Easy to use
- Modular
- Ruggedized
- Automatic sensor detection

Tests Performed:
- Heart/Pulse rate
- 3-5 Lead ECG
- Non Invasive BP
- 2 Channel Invasive BP
- Temperature
- Pulse Oximetry
- Respiration

NOTE: 2. Note: New monitors coming from Welch Allyn include 3-lead ECG cable, P/N 008-0315-00, and 3 lead Electrode, P/N 6200-9. These are not required and need not be purchased to reissue monitors.
