USAMMA POC: Customer Relations Management 301-619-1288/4301 - DSN 343-1288/4301
UNIT PRICE: $7,688.00

System Description: The Limited Contact Dynamic Compression Plate (LC-DCP) System, includes the basic instruments which permit the treatment of most fractures. Instruments are used for adjustment and installation of implants, plates and screws in patients. If the techniques described in the manual are properly followed, the chances for successful fixation are greatly improved. It is important that the standard instrument sets should always be complete so that during an operation an important instrument or implant is not missing.

Features:
- LC - DCP and DCP Graphic Case with graphic outlines of tools for ease of inventory
- Perforated for air and steam flow
- Autoclavable
- Complete with cover

UNIT PRICE: $8,942.46

System Description: The Zimmer Electric Dermatome® delivers a smooth cutting action that consistently produces clean, uniform grafts. Virtually effortless cutting even during excision of eschar.

The blade can be quickly and safely inserted. Select the proper width plate, thickness of cut, and connect the handpiece to the power supply.

Reliable, consistent calibration. Select cut thickness from 0 to .030 inches (0 to .76mm) in .002 inch (.05mm) increments. Width settings from 1 to 4 inches (3 to 10 cm) in 1 inch (3cm) increments.

The Zimmer Electric Dermatome® is engineered for both pre-vacuum and gravity displacement steam sterilization. Custom autoclave case keeps all components together during processing.

NOTE: Part numbers for resupply items used by the distributor on ECAT contract may differ from those in manufacturer's original set.

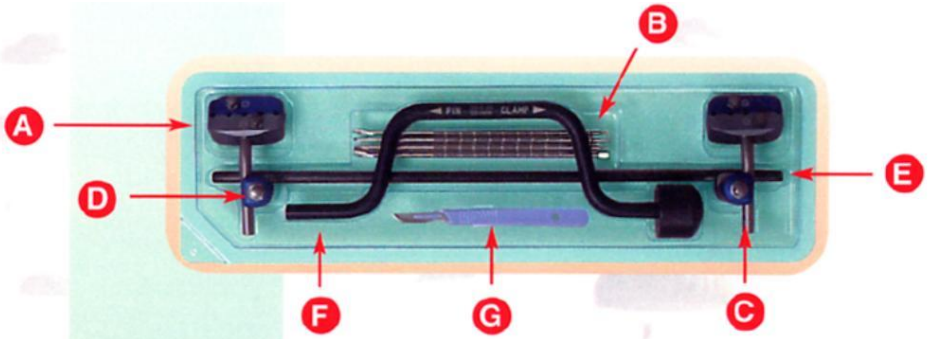
UNIT PRICE: $2,002.00

System Description: External fixation is a method of immobilizing bones to allow a fracture to heal. External fixation is accomplished by placing pins or screws into the bone on both sides of the fracture. The pins are then secured together outside the skin with clamps and rods. The clamps and rods are known as the "external frame." Some of the advantages of external fixation are that it is quickly and easily applied. The risk of infection at the site of the fracture is minimal, but there is a risk of infection where the pins are inserted from the skin into the bone. The Forward Deployed Field Pack is for temporary stabilization and transportation only.

Features:
- Modular frames which can be tailored according to surgeon's needs, allow for true independent pin placement
- The "snap click" mechanism makes it a quick and easy system to apply with an endless versatility, ideal for temporary fixation or definitive treatment of extremely complex fractures, while respecting the soft tissues
- The independent pin placement and modular components allow for fracture reduction after the fixator is applied
- Additionally, the frame can be adapted according to the fracture biomechanics



Component Listing

	Description
A	Multi-Pin Clamp Assembly
B	5mm x 180mm Apex® SD/ST Half Pins
C	30° Angled Post, Stainless Steel
D	Rod-to-Rod Coupling 8/8mm
E	Carbon Connecting Rod 8mm x 400mm
F	Pin Driver/Wrench Assembly
G	#10 Scalpel

UAs: N342, N742, P542

USAMMA POC: Customer Relations Management 301-619-1288/4301 - DSN 343-1288/4301
UNIT PRICE: $31,995.00

System Description: Although cystoscopy has been performed for many decades, the appearance for the cyctoscopes with a rod lens system and a fiberoptic light supply with a high-intensity light source greatly improved cyctoscopic visualization. The Genitourinary Cystoscopic Kit has many adapters and options available for the trained professional.

The ALU-2B Halogen Light Source is similar to the ALU-1B system, with the addition of dual lamps and a graphical intensity display. This light source is ideal for all endoscopic procedures and has a backup, preinstalled 150W halogen lamp for zero down time performance.

Features:
- Light guide turret: Accepts most popular light guides without need for adapters
- Dual lamps: Provides zero downtime
- Graphical intensity display: Provides visual lamp intensity adjustment

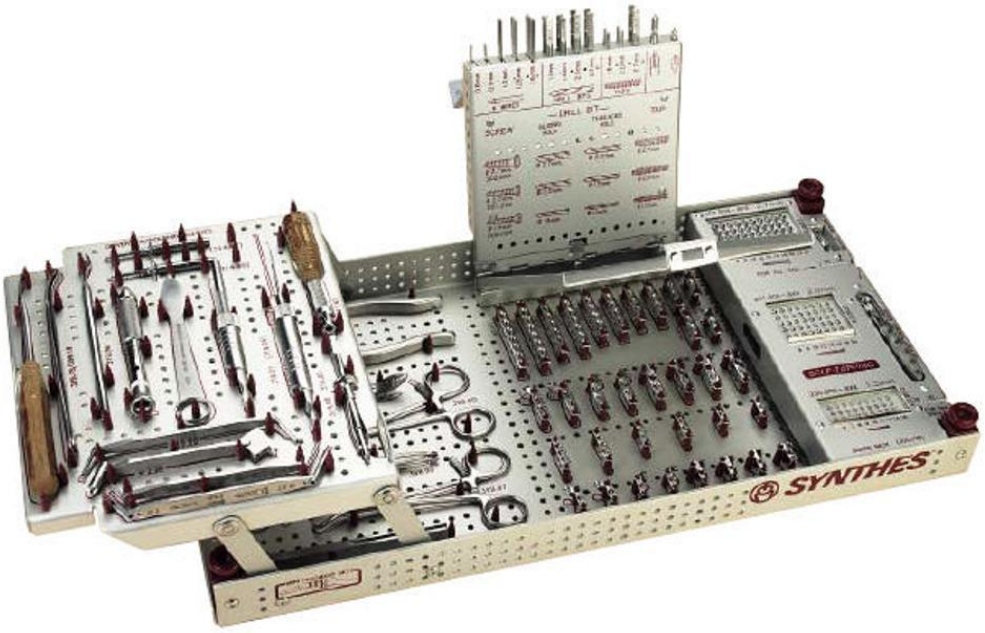
AAC 'L' ITEM NSN 6515-01-436-1020

UAs: 624A, N342, N742, P417, P542

USAMMA POC: Customer Relations Management 301-619-1288/4301 - DSN 343-1288/4301
UNIT PRICE: $14,579.00

System Description: This set includes the instruments and small implants used on patients. If the techniques described in the manual are properly followed, the chances for successful fixation are greatly improved. It is important that the standard instrument sets should always be complete so that during an operation an important instrument of implant is not missing.

Features:
- Plates have grooved undersurface
- Plates have uniform stiffness
- LC-DCP plate holes provides bidirectional compression and uniform hole spacing



INSTRUMENT AND IMPLANT SET

UAs: N342, N742, P542

USAMMA POC: Customer Relations Management 301-619-1288/4301 - DSN 343-1288/4301
UNIT PRICE: $4,461.71

System Description: Mesh Cutter is a skin grafting instrument that affords the operating surgeon a means of management for third degree burns and other full thickness defects after the patient's life support systems have become relatively stable and the wounds have been properly debrided and prepared for the skin grafting procedure.

The instrument consists of a ratchet handle continuous feed roller, a cutting roller, and a guidance plateau. The guidance plateau helps ensure a proper alignment of the dermacarrier and cutting rollers, and the ratchet handle facilitates proper advancement of the carrier.

Features: Efficient

- Interchangeable cutters provide for true efficiency
- Four common expansion rations help to provide patient specific results by promoting proper wound drainage and epitheliazation for proper healing
- Intraoperative efficiencies are realized without the inconvenience of multiple machines

Durable

- Convenient hinge design allows the cutters to be changed quickly or removed for easier ● use and cleaning
- Built-in comb minimizes the chances of grafts sticking to and wrapping around the cutters
- Stainless steel case makes sterilization and transportation simple
- Lubeless gears help ensure a smooth performance, time after time

NOTE: All orders are to be placed through Alliance Joint Venture. Part numbers for resupply used by the distributor on ECAT contract differ from those in the manufacturer's original set.

USAMMA POC: Customer Relations Management 301-619-1288/4301 - DSN 343-1288/4301
UNIT PRICE: $10,353.37

System Description: The Limited Contact Dynamic Compression Plate (LC-DCP) System has a grooved undersurface that provides limited contact between plate and bone, miminizing the chance for temporary osteoporosis under the plate and allows for periosteal callus formation at the fracture site. The uniform stiffness of the plates allows smooth contour of plate to bone and protects the plate from localized high bending stresses. The LC-DCP plate hole provides bidirectional compression and allows 80° of longitudinal screw angulation and 14° of transverse screw angulation. Uniform hole spacing provides greater intra-operative flexibility for screw and plate placement.

USAMMA POC: Customer Relations Management 301-619-1288/4301 - DSN 343-1288/4301
UNIT PRICE: $1,353.56

System Description: The Welch Allyn Sigmoidoscope Set (Model 35303) offers the finest in design and craftsmanship to provide optimal clinical performance.

Features:
- Halogen light for true tissue color and consistent, long-lasting illumination
- Fiber optics provide a cool distal ring of light with no reflections, no obstructions
- Made from autoclavable stainless steel for convenience and durability
- Hinged window with a neoprene seal avoids fogging during insufflation
- Graduated tube with removable tip for fiber cleaning
