USAMMA POC: Customer Relations Management, 301-619-4301/4316, DSN 343-4301/4316

UNIT PRICE: \$2,425.29

System Description: Designed for anticipated or unanticipated difficult airway situations and for cardiopulmonary resuscitation, the emergency intubation kit facilitates continuous ventilation during intubation, lessening the likelihood of desaturation.

Features: Special design features that facilitate intubation, blind or fiberoptic, include:

- Rigid, anatomically curved, airway tube that is wide enough to accept an 8.0mm cuffed ETT (endo tracheal tube) and is short enough to ensure passage of the ETT cuff beyond the vocal cords
- Rigid handle to facilitate one-handed insertion, removal, and adjustment of the devices's position to enhance oxygenation and alignment with the glottis
- Epiglottic elevating bar in the mask aperture which elevates the epiglottis as the ETT is passed through and a ramp which directs the tube centrally and anteriorly to reduce the risk of arytenoid trauma or esophageal placement

INTUBATION KIT EMERGENCY
MODEL # 13200
NSN 6515-01-525-8727

INTUBATION KIT EMERGENCY MULTIPACK SIZES 3 THRU 5 PHYSICAL & ENVIRONMENTAL SPECIFICATIONS

Dimensions	Height	15 inches
	Width	12 inches
	Depth	3 inches
Cube		0.3 cu ft
Weight		1.75 lb

**STABILIZER ROD
PART # 13399
ENDOTRACHEAL TUBE (ETT) 6.0 mm
PART # 13360**
