**UNIT PRICE: \$1,475.00**

**System Description:** Heavy duty cast cutter can be used both in fabrication setting or clinical use. The cast cutter combines speed, balance and quiet operation with durability. Balance of weight and power helps decrease user fatigue which often occurs during long term usage. Hexagonal drive shaft has been utilized to provide positive drive and prolong blade wear. When necessary, the blades may be changed quickly and easily. Solid, permanently lubricated bearings and durable switch provide smooth, maintenance-free operation. Portable cast dust vacuum had a storage system with a place for cast spreader, scissors, replacement blades and the filter storage caps. Filter system collects cast dust in a unique disposable filter cartridge. System comes complete with a 6 foot heavy-duty hose, 6 hose/cord straps, mounting brackets, and instructions. Plaster blade is made from hardened stainless steel.
