UNIT PRICE: \$984.48**

**System Description:** The System B allows you to dial in the exact temperature setting, which it maintains throughout the procedure. Simply set the temperature, and within 12 seconds, you have a superior apical seal and post space in a single motion. Backfill is just as easy. A sturdy cast-aluminum enclosure with carrying handle makes it easy to carry and place the System B wherever you want. The handpiece and cord assembly may be disconnected and autoclaved. With Analytic's rechargeable battery and provided charge adapter, you will get at least one hour of continuous operation. The System B also accepts SybronEndo's Touch 'n Heat tips.
