DSN 343-4301/4316

UNIT PRICE: \$895.00

System Description: The next generation of injectible Gutta Percha. The "delta" design in the logo denotes the third generation of three dimensional filling. This new model offers even better tactile sensing and ergonomics. Obtura answers the call for gutta percha delivery on demand with a "feel" no other system delivers. By using Obtura in conjunction with SybronEndo's System B, the total fill technique becomes more manageable. It comes with single-use needles and two viscosities of gutta percha (regular and low-temperature flow). The handpiece is ergonomically designed for greater control.

Features:

- Brilliant blue backlit temperature and control display.
- Digital Memory button for preferred temperature pre-sets.
- Handpiece may be detached from the control unit for convenient cleaning and maintenance.
- Ergonomic design and feel.
- Unit thermoplastisizes gutta percha.
- Better, more consistent fills.
