System Description: This is a slit lamp microscope, with adjustable slit sizes and spot illumination. It is totally portable, hand-held, compact, and lightweight with a cordless rechargeable power supply. It has an internal battery pack that permits long-term continuous lighting for approximately 40 minutes with no external power required. It has extra bright halogen lamp light source with quick, one-touch selection of 6X or 10X magnification. It has a built-in blue filter. The stand doubles as a battery charger. It has a large capacity battery. It is single hand operated, almost the same features as a desktop slit lamp but ideal for pediatrics, nursing home or hospital use.
