AAC "J" ITEM NSN 6540-01-491-0211

UA: N315

USAMMA POC: Materiel Acquisition Directorate, 301-619-7403, DSN 343-7403
UNIT PRICE: \$2,141.79

System Description: This projector provides the option of programming up to 33 total charts in any order you wish, the CP-690E allows you to conduct an examination in a darkened room simply by pressing one button on the remote control each time you want to move to the next chart. While allowing you to pre-program a sequence of charts in advance, the CP-690E's random access capability gives you the option of performing an examination by randomly selecting the charts you want while you proceed with the refraction. The sophisticated masking features allow you to isolate and maneuver individual horizontal or vertical lines and individual letters, numbers and characters. You also have your choice of special polarized tests as well as a Red/Green slide and a Red/Green filter. All of these selections are immediately accessible at the touch of a button. The standard selection of 33 charts includes a wide variety of Snellen, illiterate E's, numbers, pediatric, and special testing charts. To eliminate patient memorization, the CP-690E includes 10 selectable 20/20 lines, and additional 20/15 and 20/10 lines for the more discriminating refractive surgery patients.

PROJECTOR
MODEL # CP-0-MACP690E
NSN 6540-01-491-0211

PROJECTOR VISUAL ACUITY TEST PHYSICAL AND ENVIRONMENTAL SPECIFICATIONS

Dimensions	Height	11.02 inches
	Width	8.26 inches
	Depth	13.58 inches
Cube		0.715 cu ft
Weight		15.4 lbs
Operating Temperature Range		Not available
Storage Temperature Range		Not available
Relative Humidity (in use)		Not available
Relative Humidity (storage)		Not available
Power Requirements		100-240 Volts 50/60 Hz
Amps		.5 amps
Watts		50 watts
