AAC "L" ITEM NSN 6550-01-504-8617

UA: 107A

USAMMA POC: Customer Relations Management 301-619-4301/4316, DSN 343-4301/4316

UNIT PRICE: \$12.00

System Description: The Lead In Water test is a revolutionary product designed to make testing for lead safe, easy, and affordable. This patent pending device utilizes a lateral flow test strip, similar in technology to home pregnancy and ovulation tests. With accurate, reliable results being achieved in just 10 minutes, the Lead In Water test clearly gives results conforming to the USEPA (United States Environmental Protection Agency) guideline of 15 ppb ($\mu\text{g/L}$). Using the supplied pipette, simply fill the vial with your water sample, place the test strip into the vial, and wait 10 minutes for the results - no boiling or potentially harmful chemicals required.

Features:

- Detection levels: tests for the EPA limit of 15ppb Lead in water
- Test methodology: lateral flow immunoassay strip
- Test time: 10 minutes
- Number of tests: 2 immunoassay strips

LEAD TEST KIT WATER 2 TESTS PER KIT

MODEL # 487997

NSN 6550-01-504-8617

**LEAD TEST KIT WATER 2 TESTS PER KIT
CHARACTERISTICS**

Dimensions	Height	7 inches
	Width	4 inches
	Depth	1 inch
Cube		0.02 cu ft
Weight		Less than 1 lb

**LEAD TEST KIT WATER 2 TESTS PER KIT
(START-UP)**
