## BAG MEDICAL INSTRUMENT & SUPPLY SET M-4

**TOC**

**MANUFACTURER: TACTICAL & SURVIVAL SPECIAL**

**Manufacturer Model# TSS-M-4-ACU**

**Manufacturer's PHONE: (540) 434-8974 FAX: (540) 434-7796**

**Manufacturer's Website: <http://www.tacsurv.com>**

**AAC 'L' ITEM NSN 6545-01-536-8256**

**USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901**

**UNIT PRICE: \$165.00**

**System Description:** TSSI (Tactical & Survival Specialties, Inc) M-4 special operations medical bag was designed to fulfill the operational need for a comprehensive field portable medical bag. The M-4 is smaller than the issue M-5 medical bag and yet larger than the M-3/Unit 1 carried by combat medics and Navy corpsmen. The M-4 bag was designed by a current special operations physician's assistant (PA) who was also a former Special Forces 18D Medic. The M-4 is broken down into three sections, the Dressing/Bandage compartment, the Airway Panel, and the Rear Storage & IV compartment. Its primary method of transport is attached to the standard issue ALICE (All-Purpose Lightweight Individual Carrying Equipment) or MOLLE (MODular Lightweight Load-carrying Equipment) rucksack. The M-4 can also be carried as a patrol pack, a fanny pack, or by its grab handles like a gym bag or briefcase. In addition to the 3 operational sections, the M-4 has drain holes in the bottom and is designed with a rain flap over the zipper so that when carried on top of the rucksack, water is repelled. Also, modular attachment points are located on the front and side of the pack that will accept additional pouches with ALICE or MOLLE attachment devices. Manufactured in the USA.

- Features:**
- Smaller than the M-5 but larger than the M-3
  - Designed by a former Special Operations 18D Medic
  - Divided into three sections
  - Dressing/bandage compartment
  - Airway panel
  - Rear storage and IV compartment
  - Attaches to standard ALICE or MOLLE rucksack
  - Can be carried as a patrol pack or fanny pack
  - With handles to carry like a briefcase or gym bag
  - With drain holes and rain flap-protected zipper
  - Features front modular attachment point
  - Made in the USA

**NOTE: NOTE: PACKED BY USER**

**UNIT PRICE: \$572.08**

**System Description:** The HemCon Hemorrhage Control Bandage was created as a joint effort of HemCon, Inc. and the U.S. Army. The bandage was the result of a three-year collaborative effort to address the leading cause of battlefield mortality: bleeding. The HemCon Bandage controls bleeding by becoming extremely sticky when in contact with blood; this adhesive-like action seals the wound. The HemCon Bandage is even effective on high-pressure, high-flow arterial bleeds.

The HemCon Bandage has been demonstrated to act as an effective barrier between an open wound and dangerous bacteria by the AATCC Test Method 100-2004, Evaluation of Antibacterial Finishes (Technical Manual of the American Association of Textile Chemist and Colorists) in laboratory testing with *Staphylococcus aureus* and *Klebsiella pneumonia* bacteria. The HemCon Bandage is a pliable, sterile, chitosan (derived from shrimp shells) dressing capable of stopping severe external hemorrhage following trauma and penetrating injury. The HemCon Bandage does not contain human proteins or clotting factors, nor does it generate heat.

**System Description:** Interpulse handpiece with suction and fan spray tip, battery-powered, disposable, pulsed irrigation for orthopedics, trauma and wound care. Accessories included: Soft tissue tip, Fan spray tip and Coaxial fan spray tip. Used to prepare the wound for healing more quickly.

**Features:**

- Minimal set up – spike and shoot
- Concurrent suction with soft cone splash shield for optimal fluid containment without damaging soft tissue
- Ergonomic shape to reduce muscle fatigue
- Specific design to enhance suction capabilities
- Portable
- Completely disposable

**USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901**

**UNIT PRICE: \$378.00**

**System Description:** 18D/Medic/CLS medical equipment and ammunition carrier. Cordura nylon, six M4 magazines are held flat against the body with internal slots. Five modular aid pouches affix to the front panel via PALS (Pouch Attachment Ladder System) / MOLLE (MODular Lightweight Load-carrying Equipment) attachment system.

**Features:** Equipped with

- Two standard general purpose utility pouches
- PALS webbing (20 rows across / 3 rows high) for additional accessory pouches

The front of the harness features a Center Split design for rapid access by medics without ditching all the gear that causes a secondary load for extraction. The split was designed with a Velcro overlap to keep the maximum number of PALS slots in play. Attachment is achieved by three snaps and two-inch Velcro anchored at the top by a one-inch side lock buckle and at the bottom by a low profile Velcro snap tab forming a secure closure.

**USAMMA POC: Customer Relations Management 301-619-4301/6901 - DSN 343-4301/6901**

**UNIT PRICE: \$476.00**

**System Description:** The most advanced and innovative combat and evacuation system ever designed. Exceeds the constant and demanding challenges facing the Armed Forces and Homeland Defense personnel in the 21st century. Designed for Special Operations. Ideal for stairwells and hallways. Fits UH-60 for floor loading.

**Features:**

- Compatible with NATO patient evacuation platforms, including UH-60 Blackhawk Helicopters
- Exceeds military 3X decontamination requirements
- Meets civilian and military fire safety codes
- Ergonomically designed handles
- 6 IV pole attachment points
- Center piece
- Ground clearance of 1.5"
- 2 patient securing straps
- Slip-resistant and rip-stop pattern fabric
- Automatic locking hinges
