UNIT PRICE: \$5,457.00

System Description: The DEPMEDS containers are used in direct support of the Surgeon General's fielding of the Deployable Medical Systems (DEPMEDS). They are used for shipping and storage of the components for various operating rooms, medical support, and laboratories, which comprise the DEPMEDS. The DEPMEDS container is designed to ANSI/ISO standards and is produced from a military performance specification. The container is constructed of steel with hardwood flooring, and the interior walls are lined with plywood. The floor and inside walls contain tie down rings for securing cargo. The container is equipped with one double door opening on the side and one double door opening at the rear end of the container.

NOTE: This Manufacturer no longer in business. Check inventory.

UNIT PRICE: \$5,242.38

System Description: This automatic counter transfers tablets and capsules directly into the final container. It counts the average prescription and feeds it into a vial in less than 4 seconds. The counting technology used guarantees the most accurate counting available in any automatic system.

Features: Accuracy: 99.97% (less than 3 errors in 10,000 tablets)
Maximum count: 500 tablets or capsules or 85 drams
Maximum throughput: 1,500 parts per minute
Maximum size counted: not applicable. Counts the largest known tablets and capsules

USAMMA POC: Customer Relations Management 301-619-1288/4301 - DSN 343-1288/4301

UNIT PRICE: \$8,148.27

System Description: The Horizontal Laminar Flow (BZ) Series Hood is designed for the handling of materials in a sterile working environment. The work area is continuously bathed with positive pressure ISO 5/ Class 100 horizontal laminar flow air that has passed through a High Efficiency Particulate Air (HEPA) filter. This filter removes organisms and particulates 0.3 micron in size with an efficiency of 99.99%. The laminar flow principle consists of moving individual streams of unidirectional, ultra-clean air along parallel lines with minimal turbulence. The HEPA filter is positioned in the rear of the work area and is protected by a removable, perforated metal diffuser. The BZ is constructed of quality all-welded stainless steel with a pharmaceutical grade finish. The fluorescent light housing is externally mounted to provide optimum lighting into the work area. The acrylic top and side panels allow for additional ambient light and visibility into the work area. Our SpillGuard feature is utilized in the rear and sides of the full-width work area. The CurveFlex forearm support feature provides operator comfort.

Features:

- Outer cabinet and work surface are welded stainless steel with a pharmaceutical grade finish
- High capacity motor/blower system with speed control to extend HEPA filter life
- Top mounted pre-filters are easily changed
- HEPA filter is full width and height (36"), ensuring unidirectional airflow and is easily changed from both sides
- Top mounted fluorescent lighting is isolated from the clean environment
- IV hanging bar with 12 hooks in work area
- Separate lighted power ON/OFF indicator switches for blower and lighting
- Electrical is 115Volt, 60 Hz (220/50-60 Hz also available)
- Ten foot power cord with molded grounded plug

UNIT PRICE: \$4,786.88**

System Description: This portable scrub sink provides a practical water source for mobile medical and dental operations. Both warm and cold water are available for washing and instrument cleansing as part of the process of disinfecting medical devices. Hands free operation makes surgical scrubs simple. The rigid stainless steel basin and instrument basket are durable and easy to disinfect. And, the accessory tray allows sink-side consolidation of all instruments. Light weight and compact size make the ADU-42CF easy to setup and transport.

Features:

- Sink flow rates: High - 0.95 gpm (3.6 Lpm), Low - 0.64 gpm. (2.4 Lpm)
- Max. pump discharge head: 8.3 ft (2.5 meters)
- Pump self-priming limit: 48 inches (1.2 meters)
- Tank capacity: 1.45 gal (5.5 L)
- Tank Fill Time: High Flow - 1.1 minutes, Low Flow - 1.7 minutes
- Heating capacity: 1400 Watts
- Tank Heating Time: High Flow - 6.0 minutes, Low Flow - 6.5 minutes
- Peak water temperature: 106 °F, ±7 °F (41 °C ±4 °C)
- Cold water foot pump flow rate: 0.66 gpm (2.5 Lpm)
- Sink Basin Size: 21.3 x 15.4 x 7.4 inches (54.1 x 39.1 x 18.8 cm)
- Instrument Basket Size: 20.75 x 12.75 x 6 inches (52.7 x 32.4 x 15.2 cm)

NOTE: Avoid freezing. To protect internal components, purge the sink's tank and lines prior to unattended periods in subfreezing conditions.
