

## TC3<sup>®</sup>-V2/CLS Combat Lifesaver Bag

To the right is a depiction of the TC3<sup>®</sup> V2/CLS configured in the backpack carry mode. You will need to disconnect the two piece sling strap and then reconnect each strap to the connectors as shown below. Two straps are provided to attach the individual shoulder straps to the bottom of the TC3<sup>®</sup> V2/CLS bag.

To the right is a depiction of the TC3<sup>®</sup> V2/CLS configured in the sling carry mode. You will need to connect the strap to the connectors as shown below. One side of the strap is connected to the top and the other end of the strap is connected to the side of the TC3<sup>®</sup> V2/CLS bag.

To the right is a depiction of the TC3® V2/CLS configured in the butt pack carry mode. You will need to disconnect sling strap and stow in an appropriate area for further use. Then utilizing 2 to 4 of the 14 inch straps with male connectors and weave the straps to the back , front or side of the Outer Tactical Vest. Then attach the TC3® V2/CLS to the connectors, as seen to the right.

Below is a depiction of the TC3® V2/CLS sling type strap when it is connected. This is the configuration of the strap when shipped.
