Mission Needs Statement

A requirement in AR 750-43, 3 Nov 2006, identified PM TMDE as the responsible organization to host the DA TMDE preferred items list (PIL) and making the list available to the Army. The listing was formerly available on the US Army TMDE Activity (USATA) website prior to this changeover of responsibility on the effective date of the regulation, 3 November 2006. This gives rise to the following requirements.

1. Develop a list of test equipment that is type classified standard and available for issue. (Part of the TMDE Register identified as Standard TMDE)
2. Develop a list of alternate equipment that is not type classified but is used in the US Army. (TMDE Register)
3. Provide a means for organizations to access this information, determine usability, and if required request authorization to purchase test, measurement, and diagnostic equipment to meet mission requirements.

PM TMDE developed this web based solution to meet these requirements. The web database will include a listing of all equipment purchased by US Army elements. The listing entitled "US Army TMDE Register" will provide a means for LCMCs, PEOs, PMs, Combat and Material Developers as well as TOE and TDA organizations to research TMDE availability to include detailed specifications to determine equipment applicability and availability.

Additionally, the website will provide a means to submit required documents and information to request acquisition approval from PM TMDE. Information submitted will be placed in a folder (pending approval). Information can be entered directly into the database from the website. Once acquisition approval is provided and the organization provides exact specifications and information required, the item may be included in the TMDE registry.

Items that do not meet preferred item requirements will not be listed as DA TMDE Preferred Items List (PIL). The registry will also provide equipment listings by MACOM, providing the additional benefit of providing a means to reduce make and model

1. Click on CAC (Common Access Card) Login button to log in using your CAC. If you do not have AKO account and/or a CAC, the Army office that supports you should be able to sponsor you to establish an AKO account.

PLEASE READ INFORMATION PRESENTED FOR YOUR ASSISTANCE

MY OFFICES (Symbols and Information for Offices Supported by Individual) Add

Click 'Add' -->

Select or enter Office Symbols and Information for the Office(s) You Support.

The Acquisition Approvals Request process requires a ROLE UPGRADE ...
 If you would like a ROLE UPGRADE to be a Requestor or a Command Review Authority,
 At least one office must be selected to make Requests for Acquisition Approvals.

You may support multiple offices ...
 When entering a Acquisition Approval Request, you will be prompted to select which office to use.
 If your requests for Acquisition Approval must be reviewed by another office prior to submission, please
 ensure that a parent office is selected.

Acquisition Approval Requests and the DA Form 4062 in this application comply with AR 750-43;
 A link to the AR 750-43 is provided in 'Help Links' for you to review at your convenience.

Required information is denoted by an Asterisk; however, fill in as much data as possible.

- Click "Apply - Save"
- Move onto slide six

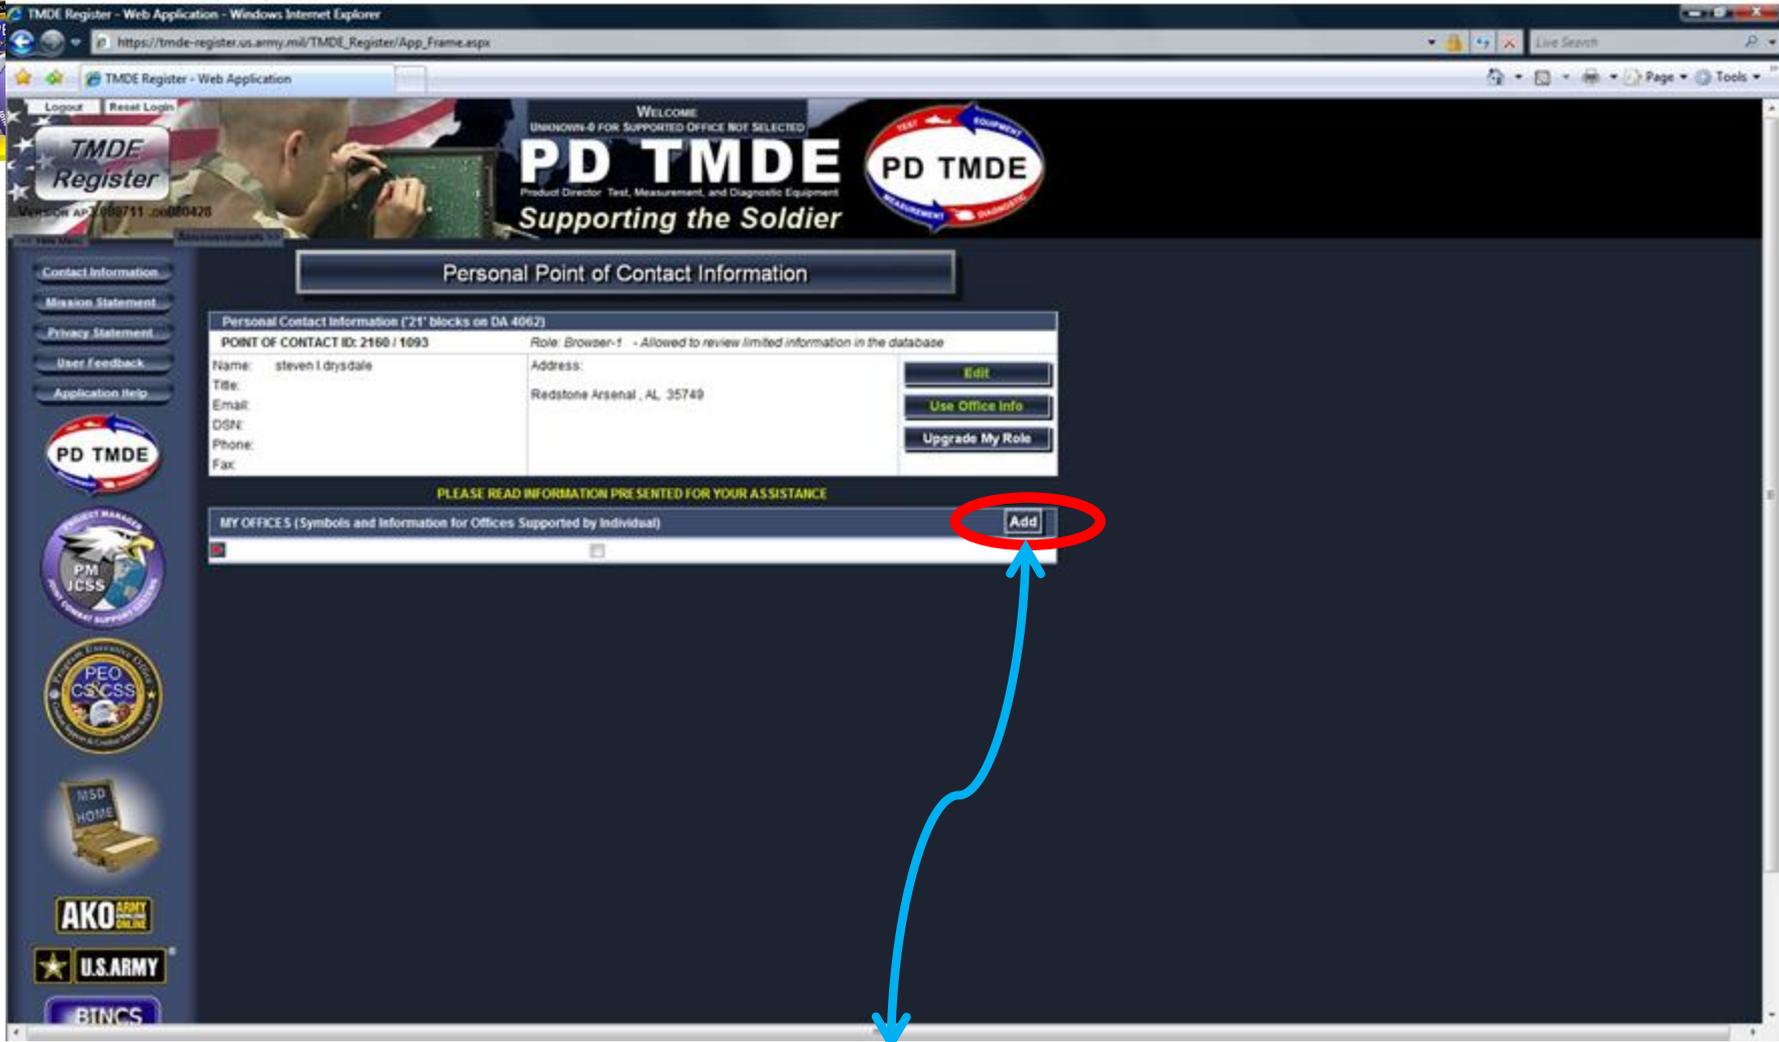

US Army Test Equipment Modernization (TEMOD)

- **If you only need access at the Browser Level (allowed to review limited information in the database) within the Register all steps are complete; slides two thru six**

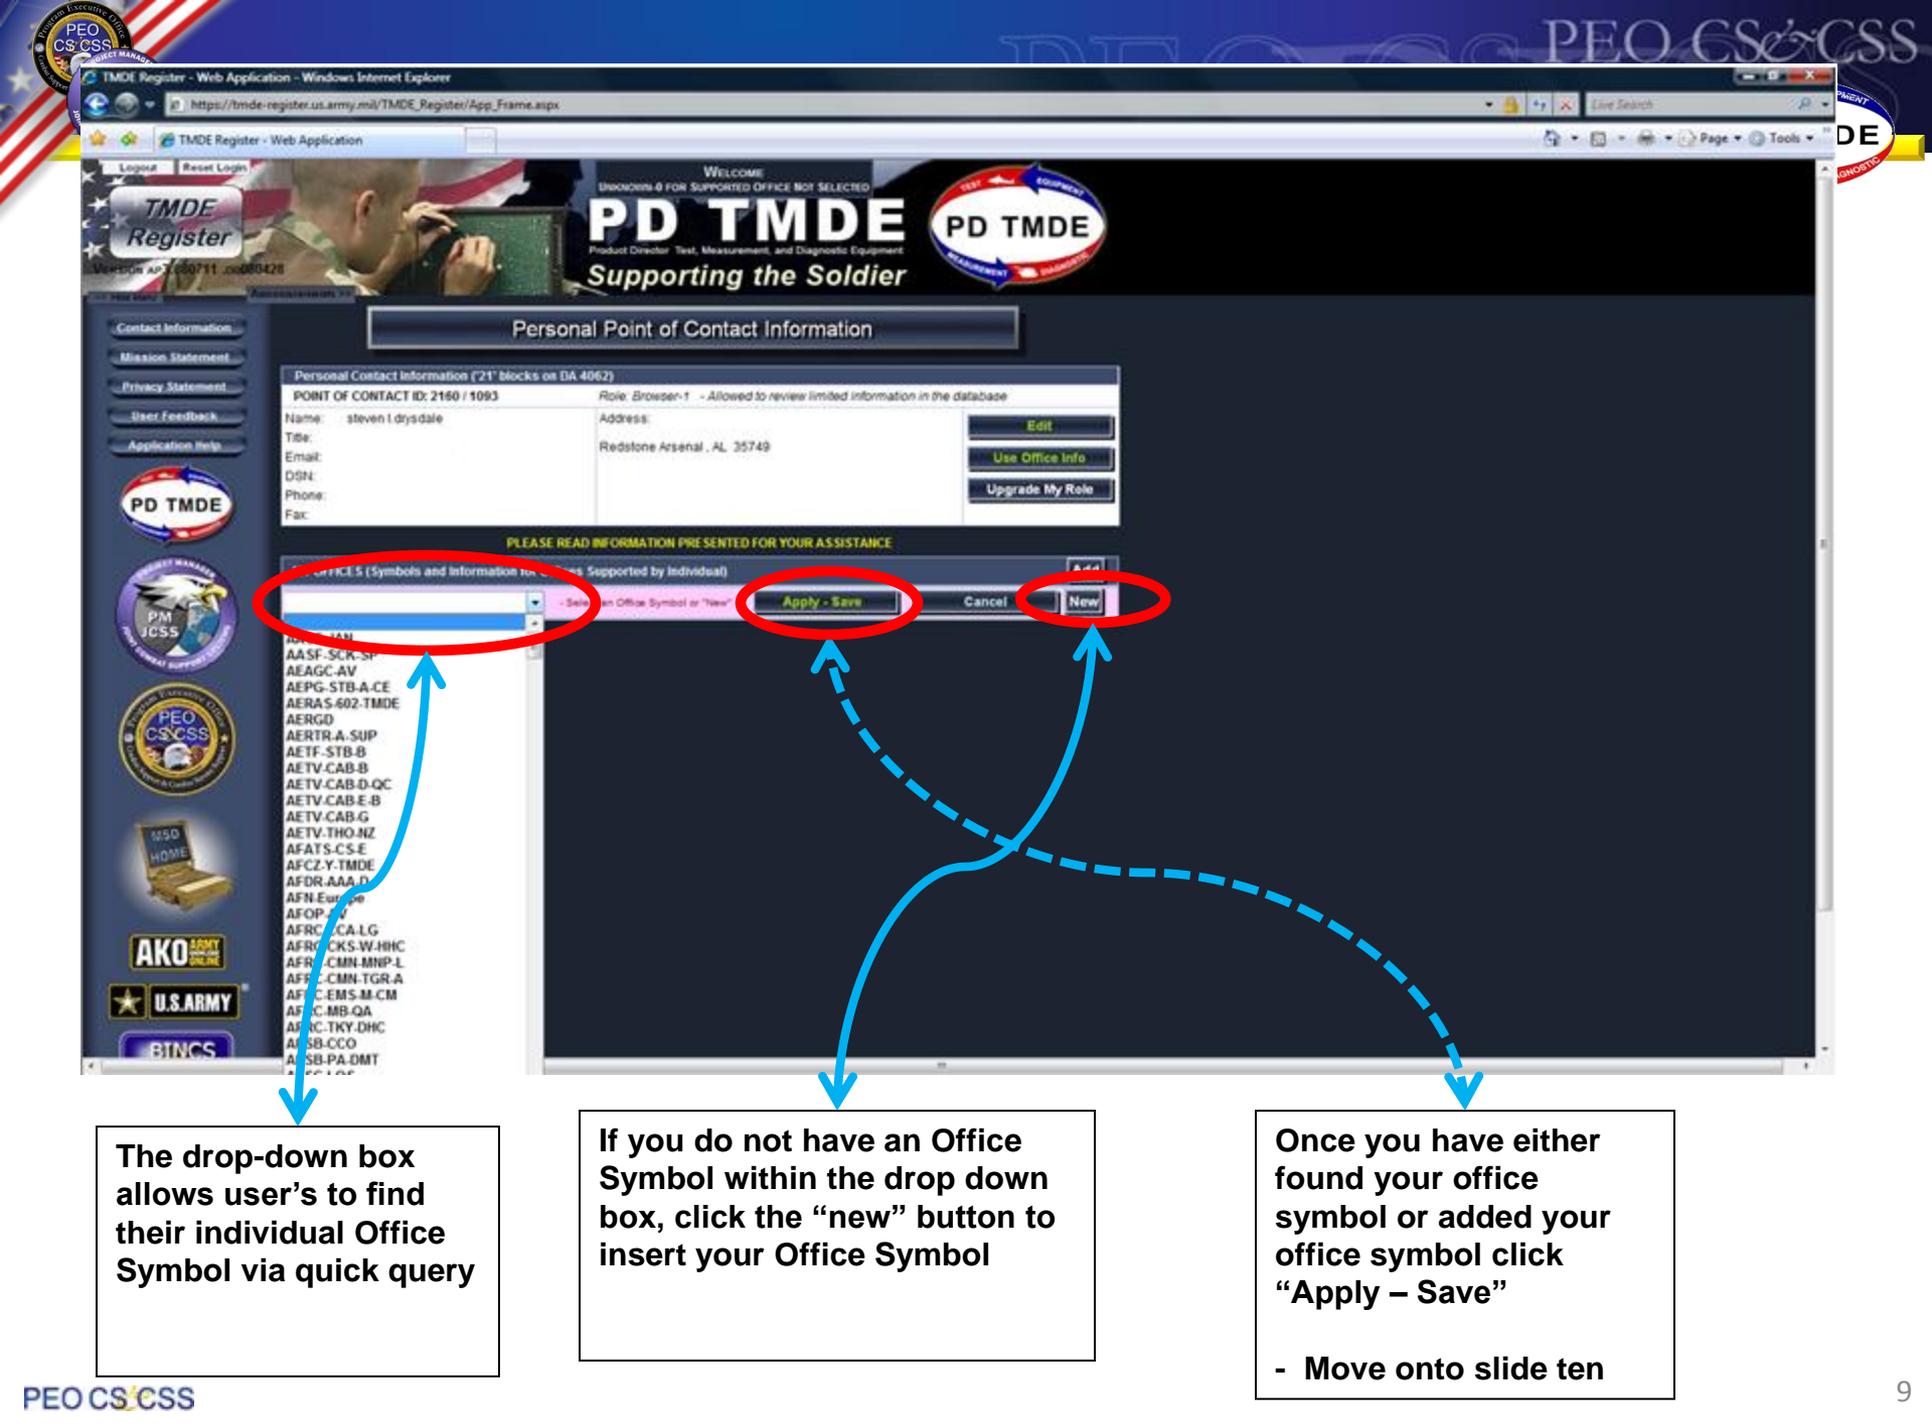

- **However, if you need further access, i.e. Requestor Level (may enter requests for Acquisition and information changes in the database), continue onto slides eight thru 11**

6. Click Add for your office symbols or information for offices you support and your parent office.

- Click “Add”
- Move onto slide nine

Note: Office symbols are required to upgrade your role to Requestor; do not provide your UIC / DODAAC. Your office symbols will appear as addressee on the acquisition approval memorandum for your TMDE.

The drop-down box allows user's to find their individual Office Symbol via quick query

If you do not have an Office Symbol within the drop down box, click the "new" button to insert your Office Symbol

Once you have either found your office symbol or added your office symbol click "Apply - Save"

- Move onto slide ten

New User - Welcome

Welcome to the TMDE-Register

The Test Measurement and Diagnostic Equipment Register is an application interface to a General Purpose Electronic Test Equipment (GPETE) database that contains the DA TMDE Preferred Item List (PIL) and equipment purchased by elements of Army Commands, Army Service Component Commands, and Direct Reporting Units (ACOM/ASCC/DRU).

As a new user you will be required to enter contact information to gain access to view the Equipment lists. After selecting 'Continue' on this page, the Personal Information Entry page will be presented within the application's general structure.

If you will be making acquisition approval requests, select the "Upgrade My Role" button on the Personal Information screen. This will notify PD TMDE application administrators to review your information and upgrade your status appropriately.

- The application is best viewed with a screen resolution of 1024x768 pixels or higher.
- The banner at the top of the application is for information only and has no active control.
- A menu on the left side of the screen provides buttons to different parts of the application and links to related sites (logos).
- Most buttons and other controls provide additional information when you "hover" (hold the mouse cursor over the control).
- The Help button on the left menu will provide additional instruction and answers to commonly asked questions.

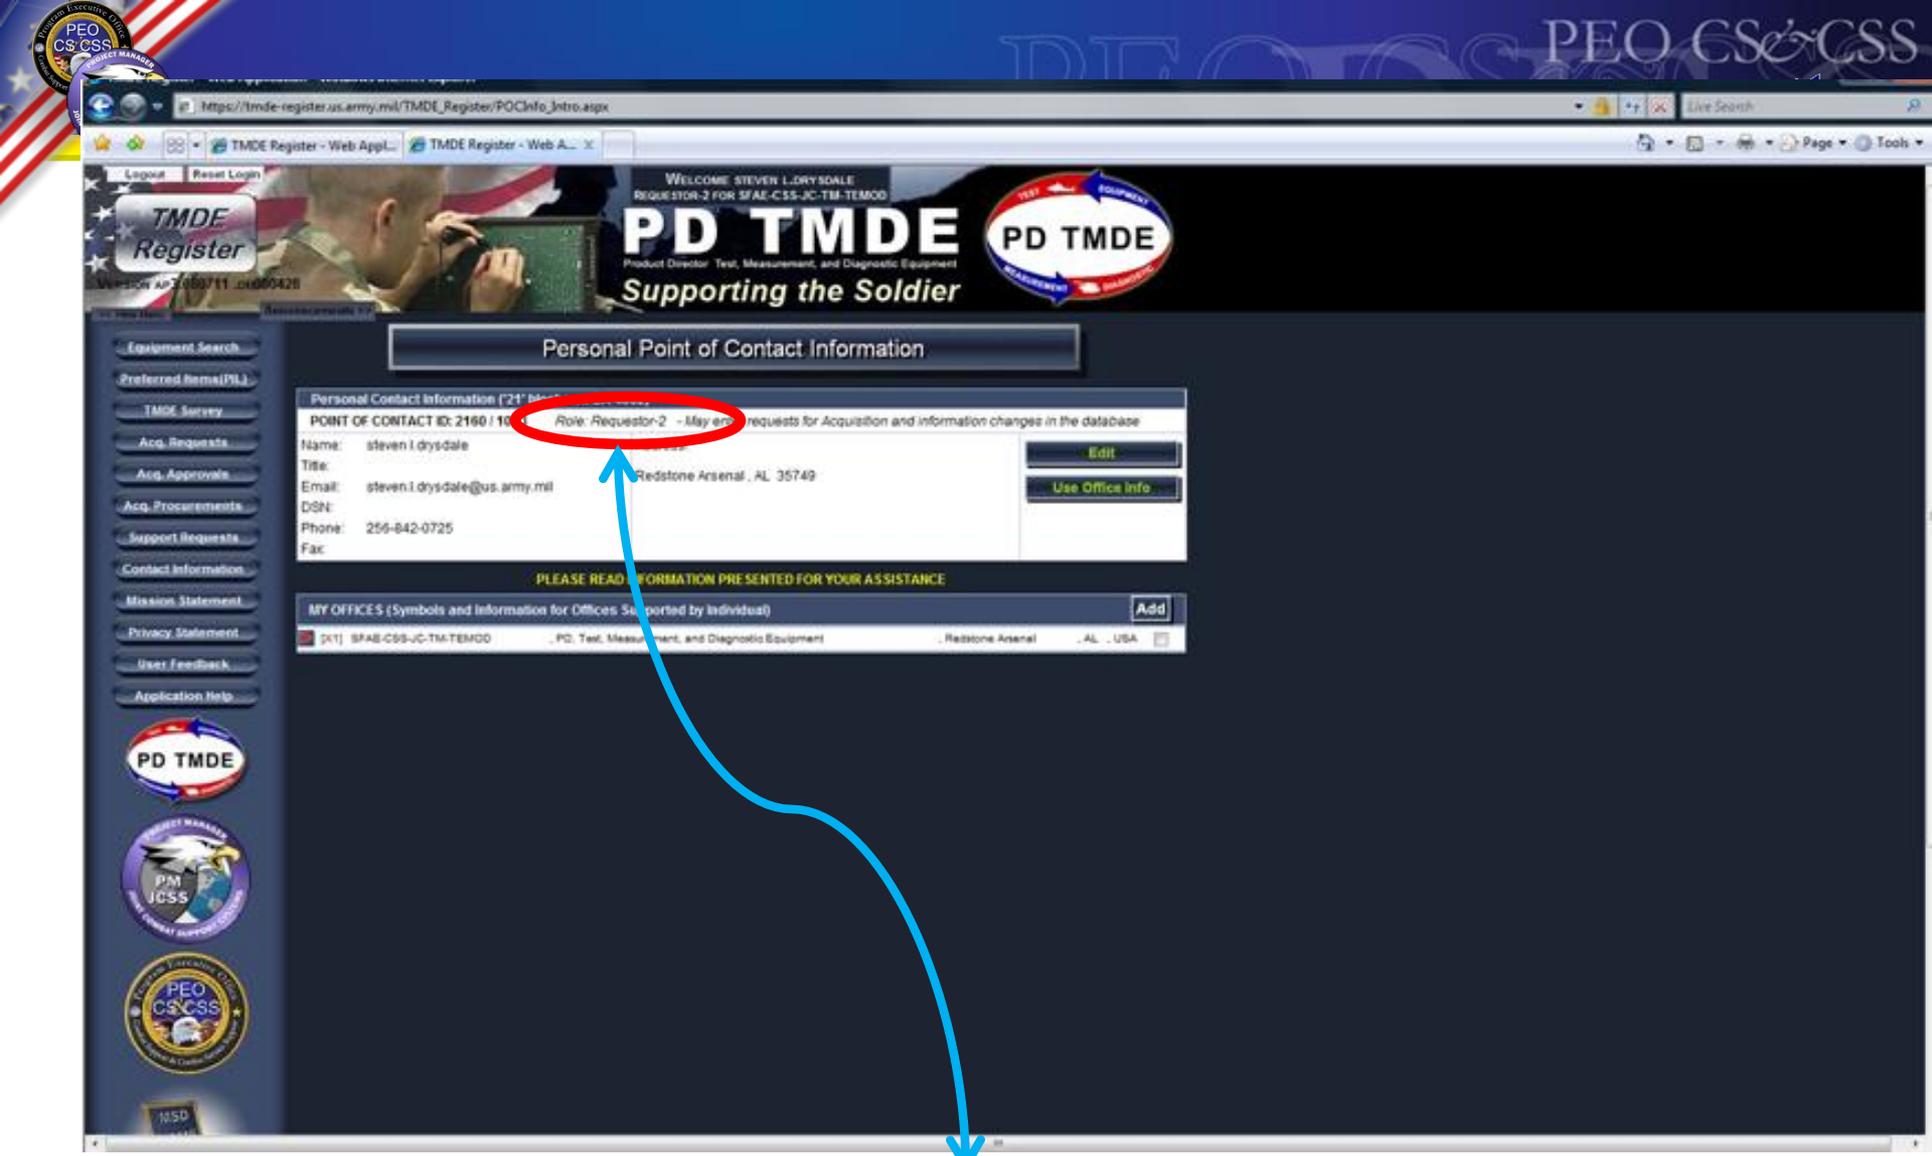

After entering the minimum required contact information this screen will no longer appear.

Currently, it is required that you exit the application and return for user role changes to occur. After you have updated your contact information, exit the application, then return; you will then have access to Equipment Lists automatically. Further role changes will be implemented by the PD TMDE acquisition approval administrators.

Continue

12. This second screen will appear after you acknowledged reading use of an Army / DOD Website and Computer System – This is the Welcome Screen for the TMDE-Register Site

13. You are now within the TMDE Register, Requestor 2 portal – may enter requests for Acquisition and information changes in the database

If needed, send email to the administrator for instructions on how to submit TMDE acquisition request (reds.TEMOD@conus.army.mil)
