**UNIT PRICE: \$2,147.74**

**System Description:** Convenient item for daily clinical practice. This lightweight and versatile hand-held Tonometer is accurate and affordable. It comes in a small carrying case making it the perfect partner for your domiciliary visits where you need the reliability of a Goldmann type applanation system.

**Features:**

- Compact and light-weight, well balanced and easy to handle by single hand
- Unique one-spring mechanism assures correct reading regardless of patient posture
- Built-in illumination permits you to use the instrument regardless of the illuminating condition of consultation room
- Direct reading type precision dial requires no conversion table to change the readings.
- Accessories such as adjustable head rest and interchangeable eyepiece provide most suitable condition for measurement
