UNIT PRICE: \$1,154.41

System Description: Venous Arterial blood Management Protection (VAMP) system is a needleless closed blood sampling system.

PXVMP160 is a 60" VAMP System with Arm-mount Reservoir.

- Features:**
- VAMP system designed to reduce infection, needle sticks, and blood waste associated with blood sampling
 - Five cc reservoir designed for safe and convenient blood sampling in environments where close proximity to the patient is desired
 - Designed for use with all disposable pressure transducers and for connection to central line catheters and arterial catheters
 - Versatile design can be mounted on a pressure backplate or used as an arm mount
 - The familiar needleless Z-Site sampling port technology is integrated into the system for added safety for the clinician and patient

VAMP System
Venous Arterial blood Management Protection System.
