AAC 'L' ITEM NSN 6515-01-469-6996

USAMMA POC: Customer Relationship Management 301-619-1288/4301 - DSN 343-1288/4301

UNIT PRICE: \$4,667.83

System Description: Dräger's Vapor 2000 incorporates many features to make life easier for the user. This offers clear handling advantages. It is simple to fill and large enough to hold a full bottle of anesthetic agent once the minimum mark has been reached. In addition, it can be turned to the "T-setting" and does not have to be emptied prior to transport. This feature prevents waste and thereby reduces costs: no troublesome disposal of half-empty agent bottles with the added risk of mix-ups or breakages. Filling the Vapor 2000 is a quick and easy job with no residual liquid left in the bottle. Locking and unlocking are also simple, one-handed operations with no complicated screws or valves.

The Vapor 2000 is a vaporizer for volatile anesthetic agents with excellent performance. Originally developed for the extreme requirements of mobile army surgical units, these demanding ambient specifications benefit the normal, daily clinical routine in anesthesia.
