**UNIT PRICE: \$1,059.82**

**System Description:** Designed to be used with the utmost ease, the 6730 can weigh even the most active baby. With step-by-step instructions right on the keypad, there's never any question about what to do next. The plastic tray accepts the baby comfortably and safely. The color-coded keypad features large ON/OFF, ZERO, and LB/KG buttons.

The portability of the 6730 is extended by its operation on "D" size alkaline batteries. The scale has a lock-in weight feature which compensates for typical newborn movement. When weight stabilizes, it is "locked-in" and displayed. The infant can be removed and its weight retained until cleared. Special filtering within the microprocessing system minimizes the effects of movement on the scale, and the final weight is determined quickly.

- Features:**
- 30 lb X 0.2 oz / 15 kg X 5 g weight capacity
  - Pounds / Ounces, Kilograms / Grams units of measure
  - LCD digital display - 5 digits, 1" / 25mm high
