AAC 'L' ITEM NSN 6515-01-537-6741

UAs: P419

USAMMA POC: Customer Relationship Management 301-619-1288/4301 - DSN 343-1288/4301

UNIT PRICE: \$58,453.00

System Description: The Sovereign Compact has the strengths of Sovereign that make it an asset in every Operating Room (OR). It has a digital control of vacuum, flow and power; neutralizes surges and provides enhanced holdability for safer, more predictable and efficient surgery. The patented Occlusion Mode, with two settings in one (pre-and post-occlusion), provides optimum chamber maintenance for safer, more predictable surgery. There is no risk of cross-contamination between patients or OR staff and no internal cleaning required due to a completely closed system. The adjustable ramp speed with an invisible threshold allows it to be configured to meet the surgeon's needs, ensuring safe, predictable surgery. The Sovereign Compact has unique features and benefits. It is easy to use and program, which saves time for more efficient patient management and keeps staff happy. The small size and light weight provide portability and allow the space-saving Sovereign Compact to fit well in small ORs. The Sovereign Compact is upgradeable, minimizing the risk of obsolescence and allowing for regular enhancements to ensure that it remains state-of-the-art. Optional WhiteStar™ enhancement for Custom Cold Phaco offers clearer corneas postoperative day 1, magnetic followability, and reduced risk of corneal burns. There are eight (8) WhiteStar™ settings available, which require no change in surgical technique.
