USAMMA POC: Customer Relationship Management 301-619-1288/4301 - DSN 343-1288/4301

UNIT PRICE: \$4,229.02

System Description: Model PAC 6.7 Compressor-Dehydrator. The oil-less piston air compressor (PAC 6.7) is a completely portable unit with an integral drying section which automatically regenerates the drying agent, with 98% dry air put out, no matter the humidity level. The unit supplies compressed air, free of oil, moisture, and particulate matter greater than 5 microns, to operate a Dental Operating and Treatment Unit. A transit case is an integral part of the compressor, the cover of which is designed to serve as a sound suppressor and protective device during normal operation. The compressor can be rapidly placed into operation and is easily maintained. These compressors are included as part of the Operating Room assemblage to provide compressed air to run mechanical ventilators.
