AAC 'L' ITEM NSN 6520-01-532-8136

UAs: 271A

USAMMA POC: Customer Relationship Management 301-619-1288/4301 - DSN 343-1288/4301

UNIT PRICE: \$1,227.47

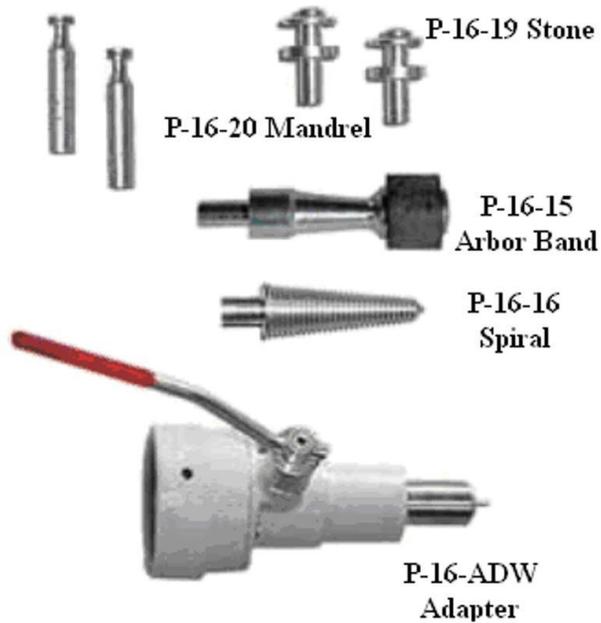

System Description: While providing a variety of horsepower ratings and speeds for the technician, these motors are known the world over for quality, dependability and affordability. Precision turned shafts made of alloy steel and double shielded ball bearings insure the smooth movement of both tapered and straight shafts.

The lathe is a full 1/4 HP, 1725/3450 rpm for use on top of laboratory bench (115 Volts/60Hz). The lathe has a 4 1/2" shaft height which allows easy use by the technician with hands resting on the tabletop. Shipped with standard dental tapered shafts, each lathe includes a right and left chuck remover which provides ease of removal of standard dental chucks.

The 16 Chuck/Changer is factory installed to the right side of a 26A Low Base, Red Wing Lathe. This combination provides the technician with the ultimate in chuck changing efficiency at both low and high lathe speeds. The movement of the activating handle allows the technician to change from 1/4" [0.6cm] to 3/32" [0.2cm] burs, mandrels, and chuck accessories without stopping the lathe.

GRINDING AND POLISHING MACHINE DENTAL LAB CHUCK-CHANGER WITH LATHE
 PART # 16B
 NSN 6520015328136

CHUCK CHANGER, CHUCKS AND ADAPTER
 PART # 16
