

TESTER SAFETY ELECTRICAL MED DEVICES

MANUFACTURER: FLUKE BIOMEDICAL

Manufacturer Model# 3367232

Manufacturer's PHONE: (440) 498-2565 FAX: (440) 498-0000

Manufacturer's Website: <http://www.flukebiomedical.com/biomedical/usen/home/>

Item Web Link:

AAC 'L' ITEM NSN 6625-01-577-6744

UAs: T500, T501, T502, T503, T505

USAMMA POC: Customer Relationship Management 301-619-1288/4301 - DSN 343-1288/4301

UNIT PRICE: \$2,300.00

System Description: The Electrical Safety Analyzer is test equipment for biomedical and clinical engineering professionals that perform field service on medical equipment throughout their facilities, in clinics, and anywhere onsite service is required. Portable, lightweight, and designed for operation in tight spaces, the analyzer offers the functionality of a simulator, multimeter, and electrical-safety analyzer in a single test tool.

With selection of two test loads, this versatile product can be used worldwide for compliance testing to preventative maintenance electrical safety standards of choice: ANSI/AAMI ES1:1993 (NFPA-99), IEC62353 (VDE 751), and AN/NZS 3551

The versatility of the multifaceted tester is further expanded with optional automation software, which speeds and simplifies testing and provides high-end analyzer productivity.

- Features:**
- Portable, ergonomic, lightweight, and easy to use
 - Large, easy-to-read display with adjustable contrast
 - Human-factors designed user interface
 - Bale design for stand-up testing in field environments
 - Five applied parts jacks and easy ECG snap connection with optional expander box
 - ECG waveform tests and dual-lead measurements combine the functionality of a simulator, multimeter, and electrical-safety analyzer in a single test tool
 - Replaceable main fuses keep the device in the field and out of the repair shop
 - Internal memory for 100 test records
 - USB connection for use with optional Ansur automation and Data Viewer software (for memory download to PC)
 - Optional Ansur automation software standardizes test procedures, compares results to standard limits, generates/stores reports and provides total digital data management
 - Rigorously tested for rugged field applications, with CE and CS

NOTE: LIN T61791
