**AAC 'L' ITEM NSN 6640-01-549-8235**

**ECAT Item Number: FSCOKMTSPACKAGEEA**

**USAMMA POC: Customer Relationship Management 301-619-1288/4301 - DSN 343-1288/4301**

**UNIT PRICE: \$12,005.57**

**System Description:** Ortho provides the tools you need to manage your pre-transfusion testing with dramatically improved workflow efficiency and standardization. Our product offering includes the ID-Micro Typing System™ (ID-MTS) Gel Test™, with flexible automation to meet your changing needs: ABO & Rh typing, antibody screening & identification, and antigen typing.

Because the ID-Micro Typing System Gel Test requires fewer procedural steps, it's easier to perform and more cost effective than other serological methods. Plus, reduced handling means fewer operator errors and more objective interpretation of results.

Testing is performed in a prefilled card containing gel mixed with the appropriate reagent. Simply pipette, incubate, spin and read. Results are ready to report, without the need for cell washing, red cell resuspension or tube shaking. The result is optimized utilization of personnel, simplified training and increased cross-training opportunities for improved productivity and greater workflow efficiency.

**NOTE: Caution - The main supply voltage should not exceed ±10% of the nominal voltage**
