**UNIT PRICE: \$3,916.28**

**System Description:** Designed for microbiological field testing, this kit allows convenient processing of multiple samples. It is a self-contained water test kit designed for field testing total coliforms in water. Sterilize on site for processing multiple samples. The kit includes a portable, battery-powered incubator, field sterilizable filter holder, hand vacuum, and all the equipment to carry out microbiological assays in the field. You will need sterile filters, Petri-Pad absorbent pads, and ampouled media.

The kit has basic field test apparatus for sterile 0.45 µm Millipore 47 mm disk filter use and can accommodate 24 analyses under field conditions. Suitable for use with NSN 6550-00-687-8436 (Culture Medium Endo Broth) and NSN 6640-00-299-8692 (Disk Filtering 47mm).

**Features:**

- Field-sterilizable filter holder operated by valved syringe
- Portable incubator with car cigarette lighter adapter; battery and battery charger

**NOTE: Electrical components described on this page have not received the CE (European Conformity) marking. All incubators are made to order.**
