

# *United States Army Medical Materiel Agency (USAMMA)*

## *FY14 Sustainment Reset Business Rules*

### Main Disposition

1. Bring equipment / sets back with you to home station. A component inventory and an Operator Technical Inspection (TI) are required prior to reset. Equipment will be inducted during the Reset Fielding timeframe at your Home station.
2. ALL MEDICAL RESET is conducted at Home Station.
3. Regardless of the current vintage of LIN/NIINs on-hand, USAMMA will provide a direct exchange of all Maintenance Significant Equipment items Type Item Code (TIC): Critical (C) & TMDE (T) for each authorized Set, Kit, & Outfit in accordance with the Units MTOE Authorization. Only equipment that deployed with the unit will qualify for reset based on forward property book and executed ARMT plans. No equipment left behind at home station (LBE) qualifies for the Reset Program.
4. Units will receive Maintenance Significant Equipment items based on Current on hand LINs even if they are Vintage NIINs. USAMMA will not modernize units during reset to the newest LINs and NIINs.
5. Combat Medic Bag (LIN U65480) and all of its components can now be requisitioned through unit's Medical Class VIII supply chain upon returning to home station and is now a unit level reset item.
6. All expendable and durable shortages are still a unit level responsibility to be requisitioned through the Unit's Medical Class VIII supply chain upon return to home station.
7. Contact your Rear-Detachment or Higher Headquarters to begin scheduling your reset fielding from USAMMA. USAMMA can be reached (Remember OPSEC), SIPR: address, jadethrs@force1.army.smil.mil and the information will get to the proper section. DSN 343- 4429
